This expenditure is justified as:

- ☐ An emergency involving public health.
- ☐ An emergency involving public safety.
- ☒ Necessary to protect State property from further loss or damage.
- ☒ Necessary to prevent or minimize serious disruption in State services.
- ☐ Necessary to insure integrity of State records.
- ☐ Quick purchase as provided by Section 20-30 (d) of the Illinois Procurement Code.

The conditions and circumstances requiring this emergency expenditure are:

The Eastbound and Westbound Gateway Rest Areas were damaged on April 2, 2006 due to a tornado and straight-line winds in the area. The roofs of the rest areas were damaged to an extent that both will need to be replaced. At this time, the Eastbound Rest Area main structure has been tarped to prevent water leaking into some areas of the facility. The Westbound facility is not leaking but is in need of immediate repair due to some missing shingles and loose shingles throughout the entire roof. Delaying the repairs of the roof may develop extensive damage to the state facilities due to potential water damage of leaking roofs, which in return will require closure of the rest areas.
